4.58.3

Release Notes - Webdesk - Version 4.58.3 - August 1, 2024

Bug Fix

- [WD-17076[1]] - Fix for an issue in the action po_editPerson that caused selection lists, e.g., in the area of the holiday calendars to be applied, not to be sorted alphabetically

Improvement

- [WD-17212[2]] - This improvement makes it possible to also manage decentralized absence reason bookings in the daily program in an additional tab. Further explanations of this new tab will follow.
