4.58.20

Release Notes - Webdesk - Version 4.58.20 - October 15, 2024

Bug Fixes

- [WD-17630[1]] - Fix for an issue that occurred in certain reports and journal queries and either displayed column headings containing a %-sign incorrectly or blocked the queries and evaluations altogether
- [WD-17436[2]] - Fix for an issue that blocked the deletion of users if the user is stored as a family member in the company for another person in HR Expert
- [WD-17634[3]] - Replaced the http URL used to query exchange rates for foreign currencies in the travel expense report with the https variant

Improvements

- [WD-17007[4]] - The prerequisites were created to add additional fields and their English translation to certain functions.
- [WD-17629[5]] - Various English field and column names were standardized across several functions.
