

I accidentally deleted a user

Due to certain circumstances, it can happen that a user is accidentally deleted from the personnel cloud.

It is possible to reconstruct this person's master data or restore it if the deletion occurred only recently.

In such a case, it is important that you contact our support team as soon as you become aware of this circumstance.

Please inform them by telephone or via a support ticket about the data record to be restored, stating your name and - if still known - user name, personnel number and TA-ID (for time recording).

Restoration is possible relatively quickly and is free of charge.

WARNUNG

Please note: Deletions made a long time ago are very time-consuming, costly and in some cases no longer possible.

In addition, TA-IDs are reassigned after some time, similar to abandoned mobile phone numbers.

Access to creating a [support ticket](#)¹ can be found in the menu under the question mark in the navigation bar - next to your profile picture or name or under Administration in the menu bar, but can also be found at personalwolke.at/Support.²
