4.59.9

Release Notes - Webdesk - Version 4.59.9 - March 10, 2025

Improvements

- [WD-18494[1]] - It is now possible to disable certain PostLoginHandlers based on their Spring bean names to reduce the system load at login.

Bug Fixes

- [WD-18397[2]] - The loading speed when changing months in the correction client was improved by optimizing the calculation of selection lists for time reasons.
