4.59.12

Release Notes - Webdesk - Version 4.59.12 - March 17, 2025

Bug Fixes

VAT

- [WD-18257[1]] - Values in VAT input fields can no longer be edited in read-only mode.
- [WD-18223[2]] - Values in VAT fields are no longer changed unexpectedly when leaving the field if separators are used.
- [WD-18266[3]] - Selecting a VAT rate is now also possible for the new single VAT component.

General Bug Fixes

- [WD-18512[4]] - Added missing text modules.
- [WD-18407[5]] - The fixed header row in Journal V2 is no longer overlapped by data underneath.
- [WD-18386[6]] - When opening the workflow list as "sadmin", no exception occurs anymore in the server logs.
