# 4.59.14

Release Notes - Webdesk - Version 4.59.14 - March 25, 2025

## Bug Fixes

- [WD-18538[1]] - In HR Expert, an error message occurred when opening an acknowledgeable message if the user had permissions for many clients or persons. This problem was fixed.
- [WD-18546[2]] - The kiosk option for displaying projects as a nested list did not work as expected. The display was corrected and the associated text modules were adjusted to reflect the selected configuration correctly.
