4.60.0

Release Notes - Webdesk - Version 4.60.0 - April 30, 2025

New Features

- [WD-18283[1]] - New job for importing photos from Azure AD (Entra ID) via GraphAPI.
- [WD-18178[2]] - Custom Raiffeisen branding is now available and can be selected in the system parameter *PoOptions.branding*.

Improvements

UI Optimizations

- [WD-17767[3]], [WD-17318[4]] - Various improvements to the UI, including unified font sizes and optimized navigation.
- [WD-17768[5]] - Corrected the font size in vacation calculations.
- [WD-18349[6]] - Dashboard colors adjusted to the dark mode palette.
- [WD-15507[7]] - Improved display of changed bookings in time correction requests to make it easier to understand exactly what was changed and how.
- [WD-18142[8]] - User image size on the welcome page set to 150px.

Removal of Technologies No Longer in Use

- [WD-14639[9]] - Complete removal of *Xinha*
- [WD-17870[10]] - Removal of the deprecated property *PoConnector.writeable*
- [WD-17888[11]] - Removal of the no longer used *EvmAgendaEntry* class
- [WD-17871[12]] - Removal of deprecated properties *destinationConnector* and *sourceConnector* from the linked connectors
- [WD-17995[13]] - Removal of DbConnectorImpl and associated legacy code.

Performance Improvements

- [WD-17881[14]] - Faster loading times in HR Expert when displaying persons.

Form and Workflow Improvements

- [WD-17024[15]] - Added "Next" and "Previous" step buttons in travel expense forms for approvers.

Data Validation and Consistency

- [WD-18088[16]] - Names of menu tree templates restricted to unique values.
- [WD-18273[17]] - Added a creation date for acknowledgeable messages.
- [WD-18087[18]] - Jobs adjusted to avoid anonymous (unnamed) jobs.

Workflow and Process Optimizations

- [WD-16983[19]] - Automatic deletion of 0-minute bookings in the time correction form (if auto-loading of bookings is active) to avoid validation errors.

Improved Logging

- [WD-18250[20]] - Added additional system information to the server logs.

Bug Fixes

- [WD-18162[21]], [WD-18163[22]], [WD-18104[23]], [WD-18113[24]], [WD-18180[25]], [WD-18133[26]] - Fixed various display problems in dark mode, including hover effects and text colors in calendars and dropdowns.
- [WD-18554[27]] - Corrected faulty color variables in themes.
- [WD-18431[28]], [WD-18430[29]], [WD-18421[30]] - Fixed color values replaced with correct theme variables to ensure consistent coloring in all modes.
- [WD-18260[31]] - Fixed a font size problem in the person editor.
- [WD-18127[32]] - Corrected color error for menu icons in dark mode.
- [WD-18448[33]] - Fixed the initial loading delay of the attendance tableau cards. Cards now appear immediately after loading completes, including a loading spinner for additional data.
- [WD-17806[34]] - Made the context menu in the card view available on mobile devices.
- [WD-18505[35]] - Corrected the empty row in Excel exports of simple data lists.
- [WD-17002[36]] - Fixed an error message in the Responsive Web App when submitting requests from the open tasks.
- [WD-18318[37]] - Fixed an error message related to the caches.
- [WD-18084[38]] - Fixed an error when exporting attachments as a ZIP file when umlauts are used in text module names.
- [WD-18725[39]] - Fixed an error message when approving time corrections.
- [WD-18359[40]] - Corrected an error message when creating vacation requests.
- [WD-18152[41]] - Fixed faulty buttons for new persons in HRX with restricted group permissions.
- [WD-18154[42]] - Restored the missing bank account category in the user settings
- [WD-18053[43]] - Fixed a problem where duplicate dashlets could be added in the HRX dashboard
- [WD-17164[44]] - Icons for absence reasons can now be left empty or inherited from the parent category.
- [WD-17760[45]] - Improved TO-DO dashlet information in case of an error.
- [WD-18271[46]] - Fixed problems with spaces disappearing between HTML tags in system messages on the welcome page.
- [WD-18353[47]] - Summary tables in the account overview now correctly support dark mode on hover.
- [WD-18039[48]], [WD-18054[49]] - Correction of font sizes and layout problems in HRX.
- [WD-17948[50]] - Fixed an error with the filter button in the mobile view of the dashboard, which caused the menu to close when the button was pressed.
- [WD-18039[51]] - Corrected validation errors for acknowledgeable messages.
- [WD-18054[52]] - Fixed an error with a truncated heading in HRX.
- [WD-18394[53]] - Corrected the separator for regular hours from "." to ":" in the time overview popup in project time tracking.
- [WD-18316[54]] - Fixed the faulty display of text modules for account values in the TA dashboard.
- [WD-18204[55]] - Fix for an error message when sending acknowledgeable messages.
- [WD-18201[56]] - Fixed a warning message in the logs.

- [WD-18445[57]] - Fixed a problem with popouts that extended beyond the screen edge in certain positions.
- [WD-17917[58]] - Corrected an error message in the color selection for absence reasons.
- [WD-18517[59]] - Fixed scrolling problems in JournalV2 tables in the desktop view.
- [WD-18449[60]] - Fixed scrolling problems in JournalV2 tables on mobile devices.
