4.59.30

Release Notes - Webdesk - Version 4.59.30 - July 2, 2025

Improvements

- [WD-18863[1]] - A new option was introduced that allows system messages to also be passed on to subgroups of a selected main group.
- [WD-18687[2]] - The details of open tasks for acknowledgeable messages now additionally display the title of the message.

Bug Fixes

- [WD-19043[3]] - Various lists in "HRX" (e.g. "Contingencies" and "Evaluations") ignored the client selection and displayed all data system-wide.
- [WD-19057[4]] - Certificate expiration dates were not displayed in HRX reports.
- [WD-19042[5]] - System messages valid only for the current day were not displayed.
- [WD-19063[6]] - During the automatic shift change, an error message occurred on customer systems despite correct configuration.
- [WD-19038[7]] - Corrected a typo in the German translation.
- [WD-19018[8]] - Changes to calendar configurations were not saved.
- [WD-19054[9]] - In isolated cases, the percentage distribution of attendance times across projects failed. The problem was fixed.
- [WD-18631[10]] - In Personalwolke, an error occurred due to overfull queues.
