4.59.31

Release Notes - Webdesk - Version 4.59.30 - July 2, 2025

Bug Fixes

- [WD-19108[1]] - Re-entry of employees in the HR Expert module was not possible due to an error message.
- [WD-18992[2]] - Changing the meeting date incorrectly caused the evaluation period of the Appraisal Interview to change.
- [WD-19175[3]] - In certain cases, the "Confirmation" tab in the employee appraisal was not populated correctly with data (e.g. after validation errors or tab switching).
- [WD-19112[4]] - Resetting a password by an administrator failed due to an error in sending the email.
- [WD-18166[5]] - Changes to the help text within actions were not saved.
- [WD-19164[6]] - Downloading travel receipts via the REST API failed because an error occurred.
- [WD-18872[7]] - Anonymized absence reasons were still displayed in the group calendar when clicking on the reason.
- [WD-18939[8]] - The receipts view was faulty on mobile devices after selecting a receipt type and no longer showed labels.
