4.61.4

Release Notes - Webdesk - Version 4.61.3 - October 14, 2025

Improvements

- [WD-19525[1]] - The salary report now correctly recognizes the payment type "13 times per year" as an additional salary component and displays it as a bonus.
- [WD-19410[2]] - A new field "Is eco-friendly?" was introduced in vehicle management. It can now be recorded whether the vehicle is, for example, an electric vehicle. The information is displayed both in the user settings and in the vehicle overview.

Bug Fixes

- [WD-19559[3]] - In time tracking under the General tab, the order of the personal fields was not displayed as defined in the client settings but was sorted alphabetically. This behavior has been corrected.
- [WD-19538[4]] - On mobile devices, too much white space was displayed in the Calculated Costs tab for travel expense reports. The layout has been optimized.
- [WD-19564[5]] - An issue occurred when editing the PtmAttendanceTimeConnector, and the configuration could no longer be opened. This has been fixed.
- [WD-19565[6]] - An error message occurred when loading time expenditure reports if no project was specified. This behavior has been fixed.
