Update 2025-10-30 (4.61.6)

Updated to version 4.61.6[1].

Improvements

Calendar in the Dashboard

- All types of absences that are booked by the hour, e.g., home office, can now also be displayed as "Absence" in the dashboard calendar. To configure this display, please contact our support team.

New Features

More Targeted Data Selection

- Persons can now be retrieved specifically by the UID of the client. This enables simpler and more precise queries within the system. For details on how the API works and how to use it, please contact our support team.

Additional bug fixes were also made.
