4.62.10

Release Notes - Webdesk - Version 4.62.10 - January 27, 2026

Improvements

Time & Attendance

- [WD-19986[1]] - Improvement of the TA field group settings: The order of the groups themselves can now be changed
- [WD-19985[2]] - Improvement of the user interface: Unused group fields can now be added directly per row; the previous general Add button was removed.

Bug Fixes

HR Expert

- [WD-19780[3]] - Fix for an error message in HR Expert: person profiles can be opened again without errors.

Security

- [WD-19147[4]] - Fixed a security vulnerability in download URLs to prevent XSS attacks.
