4.59.40

Release Notes - Webdesk - Version 4.59.40 - January 7, 2026

Bug Fixes

Interfaces

- [WD-19894[1]] - Improvement of the Exchange interface: Check for existing or active mailboxes before synchronizing appointments to avoid unnecessary error messages.

Additional Bug Fixes

- [WD-19935[2]] - Fix for an error message in the GwStartOutOfOfficePeriodJob to improve stability and reliability during processing.
- [WD-19929[3]] - Fix for an error in the GwMailForwardingRuleTogglerJob to avoid unexpected aborts during execution.
