4.63.13

Release Notes - Webdesk - Version 4.63.13 - March 26, 2026

Bug Fixes

Project Time Tracking

- [WD-20349[1]] - Fix for a display error where the color coding in the difference column of project time tracking was no longer displayed.

Permissions

- [WD-20452[2]] - Fix for an issue where users with read-only access were incorrectly shown an Edit button in the Holidays tab.

Interfaces

- [WD-20493[3]] - Fix for an error in the TA connector that interrupted the recovery process due to a faulty exporter link and faulty state logic for bookings.
