4.64.8

Release Notes - Webdesk - Version 4.64.8 - June 23, 2026

Improvements

UI / UX

- [WD-20329[1]] - Improvement of the display of the vacation calculation in the printout so that values and labels are displayed more clearly.

Bug Fixes

Time & Attendance

- [WD-21147[2]] - Fix for an issue where the comment dialog did not open when deleting bookings or absences in the correction client.
- [WD-21140[3]] - It was prevented that time tracking records are created that cannot be linked to a valid personnel assignment.

Travel Expense Tracking

- [WD-21125[4]] - Fix for an issue where attachments for special receipt cases had to be selected twice in order to be attached.
- [WD-21040[5]] - Fix for an issue where an error message could occur when navigating back after saving a rejected travel process.

HR Expert

- [WD-21136[6]] - Fix for an issue where the person search failed when selecting employees in the re-entry and termination forms.

User Settings

- [WD-21148[7]] - Fix for an issue with the display of the transfer history when the timestamp field is configured incorrectly.

Other Bug Fixes

- [WD-21137[8]] - It was ensured that action configurations can only be created completely, together with the associated configuration file.
- [WD-21133[9]] - Fix for an issue where open tasks were not displayed when workflow details were empty.
- [WD-21130[10]] - Fix for an issue where the notice about attached documents for open tasks was no longer displayed reliably.

Miscellaneous

- [WD-21152[11]] - The field "hoursPerWeek" was added to the person master data export.
