4.64.18

Release Notes - Webdesk - Version 4.64.18 - July 14, 2026

Improvements

HR Expert

- [WD-21413[1]] - All edit pages in HR Expert now have a Back button in the toolbar to make navigation to the previous overview or selection page easier.

Performance

- [WD-21415[2]] - Optimization of system performance by adjusting cache sizes to avoid unnecessary evictions and slow access.
- [WD-21387[3]] - Adjustment of the permission caches for large installations to improve system performance and stability with high user counts.

UI / UX

- [WD-21417[4]] - Improved compliance with UI conventions through automated checking and documentation for code changes.

Bug Fixes

Time & Attendance

- [WD-21472[5]] - Fix for an issue where the annual calendar could no longer be loaded if an error reason was assigned via multiple processes.
- [WD-21214[6]] - Fix for an issue with the caching of journal data in time tracking.

Project Time Tracking

- [WD-21445[7]] - Fix for an issue where mirrored time tracking data between time tracking and project time tracking was removed when attendance data was missing.

Travel Expense Tracking

- [WD-21476[8]] - Fix for an issue where an error could occur when moving an entry date in a travel request.
- [WD-21450[9]] - Fix for an issue in the display of business cases in travel expense tracking, where faulty count queries could lead to errors.
- [WD-21383[10]] - Fix for an issue where length limits that were too short prevented saving scripts in additional fields of travel expense tracking.
- [WD-21100[11]] - Fix for an issue where an error message could occur when leaving the tab for international trips if saving incomplete drafts was enabled.

HR Expert

- [WD-21420[12]] - Fix for a startup issue in the HR Expert module that could lead to an error when loading the module.

Administration

- [WD-21199[13]] - Fix for an issue where an error message could occur when sending notifications about locked user accounts if no email address was stored.

Login / Logout

- [WD-21323[14]] - Fix for an issue where a notice about an expired session was incorrectly displayed after logging out.

Other Bug Fixes

- [WD-21382[15]] - Improved logging and error diagnostics for faulty email templates provide clearer error messages for email delivery problems.
