4.64.19

Release Notes - Webdesk - Version 4.64.19 - July 16, 2026

New Features

Time & Attendance

- [WD-17369[1]] - Changes to a person's time tracking settings are now logged in the audit trail.

Improvements

Time & Attendance

- [WD-20723[2]] - The attendance overview table now includes the Organizational Unit column, which can be displayed and sorted.

Travel Expense Tracking

- [WD-21126[3]] - Adjustment of the behavior and display of the Save button in the travel expense form: after saving, the user stays on the current tab and the button uses the correct icon.

Administration

- [WD-21398[4]] - Extension of the job overview with a client column and a client filter

Permissions

- [WD-16750[5]] - Optimization of the cleanup of permission caches so that changes take effect in a more targeted and efficient manner.

Bug Fixes

Time & Attendance

- [WD-21464[6]] - Fix for a display issue where the daily target time was not displayed correctly in the daily program details of a weekly program.
- [WD-21396[7]] - Fix for a display issue where the person data area was displayed incompletely on mobile devices and with its own scrollbar.
- [WD-21358[8]] - Fix for an issue where JavaScript columns in the organization journal were displayed empty for certain numeric values in client rendering.
- [WD-21270[9]] - Fix for an issue where loading statistics in the annual calendar was very slow.

Travel Expense Tracking

- [WD-21476[10]] - Fix for an issue where an error message could occur under certain circumstances when moving travel receipts.
- [WD-21474[11]] - Fix for an incorrect display of the delete button in VAT fields in travel expense tracking.

HR Expert

- [WD-21470[12]] - Fix for an issue where a blank page was displayed after returning from HR Expert to Webdesk.

Interfaces

- [WD-21439[13]] - Fix for an issue where date/time placeholders in the file name were not processed correctly when downloading files via SFTP. * can now be used as a placeholder.

UI / UX

- [WD-21355[14]] - Fix for an issue where notifications were not displayed correctly in all view sizes and on mobile devices.

Other Bug Fixes

- [WD-21356[15]] - Fix for an issue where errors during script execution in the JavaScript console were not displayed.
- [WD-21267[16]] - Fix for an issue where an error message could occur when downloading folders as a ZIP file containing special characters.
