4.64.21

Release Notes - Webdesk - Version 4.64.21 - July 21, 2026

Improvements

Travel Expense Tracking

- [WD-21052[1]] - Extension of the travel expense request form with an option that displays only the relevant fields for advance payment requests.
- [WD-21051[2]] - Adjustment of the calculation for advance payment entries so that the advance amount is taken into account correctly.

Reporting

- [WD-20927[3]] - The name of the dashlet was adjusted so that it now corresponds more clearly to the displayed content.

Performance

- [WD-21533[4]] - Optimization of the speed when opening the context menu in the person list, so that menu entries are now displayed faster.

Bug Fixes

Time & Attendance

- [WD-21562[5]] - Fix for an issue where the time tracking module could switch to the remaining server with a delay after a connector failure.
- [WD-21359[6]] - Fix for an issue where the Excel export of the calendar did not work.
- [WD-21263[7]] - Fix for an issue where reasons for time entries could not be displayed or edited.

Project Time Tracking

- [WD-21372[8]] - Fix for an issue in project time tracking where, after deleting a project entry, negative times were displayed and new entries could not be added.

Travel Expense Tracking

- [WD-21574[9]] - Fix for an issue where an error could occur under certain circumstances when creating a travel booking.
- [WD-21481[10]] - Fix for an issue where manually created mileage reports were deleted when saving a trip with the travel plan option active.

HR Expert

- [WD-21569[11]] - Fix for an issue where, in the HR Expert administration, the assigned time model was incorrectly removed for part-time employments.
- [WD-21567[12]] - Fix for an issue where planned changes in the time models area could be lost after saving under certain conditions.
- [WD-21546[13]] - Fix for an issue where an error message could occur when opening the time tracking tab in HR Expert if fields were assigned twice.

- [WD-21011[14]] - Fix for an issue in HR Expert where creating or editing the bonus type "Bonus 8%" resulted in an error message.

Administration

- [WD-21572[15]] - Fix for an issue that made it impossible to create a new group in the administration area.
- [WD-21299[16]] - Fix for an issue where deleting a client failed if permission assignments with client competence were still assigned to it.

Interfaces

- [WD-21154[17]] - Correction of misleading error messages in the calendar synchronization log so that expired connections are detected correctly.
