4.64.24

Release Notes - Webdesk - Version 4.64.24 - July 29, 2026

Bug Fixes

Login / Logout

- [WD-21783[1]] - Fix for an issue where logged-in users were incorrectly logged out after a server switch or restart even though the session was still valid.
- [WD-21778[2]] - Fix for an issue where session cookies were not set correctly for cross-site requests on secure connections, which could lead to unexpected logouts in mobile applications.
