4.64.25

Release Notes - Webdesk - Version 4.64.25 - July 31, 2026

Improvements

Travel Expense Tracking

- [WD-21784[1]] - Adjustment of the user interface for travel requests, including better alignment and display of the currency selection as well as improved management of advance payments.
- [WD-21620[2]] - Extension of the travel request with the option to select the currency for displayed amounts.

Bug Fixes

Time & Attendance

- [WD-21691[3]] - Fix for an issue where creating a new time program in time tracking was not possible.

Project Time Tracking

- [WD-21717[4]] - Fix for a display issue where the totals of working hours and differences were misaligned in the mobile edit dialog for projects.

Travel Expense Tracking

- [WD-20422[5]] - Fix for an issue where attachments were deleted when saving a travel expense report failed.

Reporting

- [WD-21816[6]] - Fix for an issue where the export of receipts for multiple selected trips in the “Trips of My Employees” report failed.

User Settings

- [WD-21808[7]] - Fix for an error where an error message was displayed when switching back from another user.

Login / Logout

- [WD-19624[8]] - Fix for an issue where users were automatically logged out after a server failover even though session storage was enabled.

Other Bug Fixes

- [WD-21803[9]] - Fix for an issue where the AI chat did not work over a local connection.
- [WD-21646[10]] - Fix for an issue where error messages were displayed in the log at server startup.
