4.64.33

Release Notes - Webdesk - Version 4.64.33 - August 20, 2026

Improvements

Travel Expense Tracking

- [WD-21902[1]] - Improvement of the filter in the workflow lists so that only employees with open tasks are displayed.

Other Improvements

- [WD-17159[2]] - Extension of the export function for attachments so that it is now also available directly in the workflow list and in the details of requests.

Bug Fixes

Time & Attendance

- [WD-22043[3]] - Fix for an issue where the time and absence request form continued to display the data of the previous user after a user switch.

Project Time Tracking

- [WD-22099[4]] - Fix for an issue where project time management was no longer usable on individual servers due to a deadlock.

Travel Expense Tracking

- [WD-19858[5]] - Fix for an issue where empty input fields for the region selection were incorrectly displayed when the tab for daily deductions was opened for the first time.

HR Expert

- [WD-22071[6]] - Fix for an issue where saving personnel data in the background could lead to untraceable errors.
- [WD-21330[7]] - Fix for an issue where saving personnel data could fail if an empty time tracking ID was present.
- [WD-16764[8]] - Fix for an issue where changes to salary items were not validated correctly when saving.

Reporting

- [WD-22081[9]] - Fix for an error where the export job for monthly bookings could fail for active employees without an exit date.

User Settings

- [WD-22086[10]] - Fix for an issue where deleting or saving a substitute assignment without an assigned person resulted in an error message.

Administration

- [WD-22095[11]] - Correction of translations and labels in the role management area to ensure a consistent and complete display.

Permissions

- [WD-22039[12]] - Fix for an issue where individual users of a specific client temporarily had no permissions at login.

Interfaces

- [WD-22087[13]] - Fix for an issue where database names containing hyphens on SQL Server could cause errors at system startup.

Miscellaneous

- [WD-21290[14]] - Addition of a help text and adjustment of the label for the Notify Author field in the Simple Process Editor.
