4.64.39

Release Notes - Webdesk - Version 4.64.39 - September 11, 2026

Bug Fixes

Time & Attendance

- [WD-22236[1]] - Fix for an issue where the date and time format was not displayed correctly for requests that were started or assigned on the first day of the month.

Travel Expense Tracking

- [WD-22325[2]] - Fix for an issue where, in the tablet layout, adding attachments for certain receipt types in travel expense tracking was no longer possible.
- [WD-22317[3]] - Fix for an issue where HR employees could see and edit tasks in the travel expense workflow that were actually intended for the supervisor.
- [WD-21603[4]] - Fix for a display issue where validation errors during receipt entry were not visible on Surface tablets.

Login / Logout

- [WD-22295[5]] - Optimization of the sadmin login so that load times are significantly improved even with many previous login attempts.

Performance

- [WD-22294[6]] - Fix for an issue where aborted database connections could lead to long wait times for requests.
