4.64.50

Release Notes - Webdesk - Version 4.64.50 - October 15, 2026

Improvements

Administration

- [WD-22856[1]] - Improvement of the function for permanently deleting objects in the trash by displaying a progress dialog and processing individual deletions in an isolated, faster manner.

Bug Fixes

Workflow

- [WD-22880[2]] - Fix for an issue at system startup where an infinite loop in menu templates with cyclic links could cause the startup to abort.

HR Expert

- [WD-22893[3]] - Fix for an issue where creating a new employee in HR Expert failed if no HR employment was selected.
- [WD-22920[4]] - Fix for an issue where a duplicate button for generating reports was displayed in certain HRX report views and the selection was not displayed correctly.

Administration

- [WD-22855[5]] - Fix for an issue where permanently deleting multiple persons in the trash partially failed and not all deletions were logged correctly.

Performance

- [WD-22901[6]] - Optimization of the log list load time through a more efficient calculation of the total number of entries, which significantly speeds up opening the list with large data volumes.

UI / UX

- [WD-22816[7]] - Adjustment of the display in the TA tab of HRX so that the buttons for deleting the employment and starting the payroll run are displayed correctly again.
