

# Statistics

The statistic provides a monitoring tool for executive staff, offering an overview over optional (individually parametrized) time accounts, such as development of balance accounts or balance of overtime hours.

It is possible to show the actual account balance, as well as the average value and the total sum of all months.

The selection of the requested units/departments is operated either via the organigramm or the favourites-list. For detailed description of handling, please see chapter >> **Management**.

The screenshot shows the 'Statistik' interface with a search bar and a table for the year 2009. The table lists accounts for 'Aigner, Wolfgang' and 'Böhm, Susanne' with columns for each month and a 'Summe' column. Below the table is a 'Zusammenfassung' section with summary statistics.

Konto	01/09	02/09	03/09	04/09	05/09	06/09	07/09	08/09	09/09	10/09	11/09	12/09	Summe
<b>Aigner, Wolfgang - Anzahl: 3</b>													
Saldo	10.00	10.00	10.00	10.00	10.00								30.00
