4.54.0

Release Notes - Webdesk - Version 4.54.0

Zeiterfassung

- [WD-15775[1]] - IF2SQL: Export accounts in the right format
- [WD-16144[2]] - IF2SQL should not export all persons if no person matching a clientPrefix filter was found
- [WD-16241[3]] - The dashboard for users without a TA-ID is always displayed when it's configured to be the start action
- [WD-16247[4]] - JournalV2: The combined export doesn't respect the data change (date interval) from the user
- [WD-15976[5]] - Add CSV export feature to Journal table
- [WD-15978[6]] - Implement a custom button to "Save PDF and CSV files from JournalForExternalSystem"
- [WD-15979[7]] - Replace the current button Present/Absent with two independent buttons in webdesk dashboard
- [WD-16059[8]] - Add CSV export options in the action config of ta_getJournalV2
- [WD-15451[9]] - Make IF2SQL export via job available in job logs
- [WD-15633[10]] - Add the "Show/Hide columns" feature to ta_getJournalV2 too
- [WD-15748[11]] - Save state to action cache when changing columns visibility in JournalV2
- [WD-15883[12]] - Increase limit of timeCorrection intervals from 10 to 20
- [WD-15908[13]] - Persist absence reason settings in tacon.properties
- [WD-16034[14]] - Avoid blocking write operations while exporting to IF2SQL data warehouse

Projektzeiterfassung

- [WD-14920[15]] - Mobile editTimeEfforts month view - useless empty day-panel at bottom
- [WD-16228[16]] - TA-PTM Time Correction: Wrong working time calculation after deleting middle interval
- [WD-16230[17]] - TA-PTM Time Correction: Problem with overlapping intervals validation (from ptm_editTimeEfforts config)
- [WD-16025[18]] - TA-PTM Time Correction: Add option to calculate working time with the script

HR-Expert

- [WD-15915[19]] - Show proper validation error message in HRX's save button

UI/UX

- [WD-15701[20]] - The progress info slides in from the left unexpectedly
- [WD-15743[21]] - Fixed table header on WdOrgTable is not adjusting to collapsed SideMenu
- [WD-15780[22]] - New Edit Time efforts have broken bar
- [WD-15961[23]] - Correction client mobile view: Remove zebra styling of day contents
- [WD-16003[24]] - Journal V2 not showing well on mobile due to wrap issues

- [WD-16172[25]] - JournalV2 mobile remove unnecessary space between day "header" and content
- [WD-15251[26]] - Beautify the export button of the Journal v2

System

- [WD-12888[27]] - Dynamic SameSite=none support for chrome
- [WD-15026[28]] - Webdesk-installer fails to connect to sql-server Database on 4.48+
- [WD-15888[29]] - NoSuchFieldExceptions when running hrPersonConnector
- [WD-11185[30]] - New relation m:n between PoKeyValue and PoLegislation
- [WD-13710[31]] - Upgrade velocity dependency
- [WD-15687[32]] - Move labor contract entity from HR to PO and assign to Legislation
- [WD-15736[33]] - Improve password reset for client admins
- [WD-16018[34]] - Support ndjson in PoRestEndpointJsonConnectorImpl
- [WD-16023[35]] - Job to execute UserDataPreloader tasks in the night
