

4.4.0

Release Notes - Webdesk - Version 4.4.0

Fehler

- [[WD-9287](#)¹] - Cardreader isn't working after update

Bug

- [[WD-5013](#)²] - Time Correction has a mirrored primary button on bottom, which is not updating on toggling
- [[WD-8648](#)³] - Time correction multi day process ignores role when you can select a roleholder
- [[WD-8657](#)⁴] - HRX-Report EmployeeState: Reasons are show with keyvalue and not text
- [[WD-8662](#)⁵] - HRX-Reports: Birtreportset_changes takes not the entry date for the entry list
- [[WD-8704](#)⁶] - Client specific "All kiosk Administrators" and "Hierarchical group for technical users of Kiosks" falsely allow to link to groups of other clients too
- [[WD-8735](#)⁷] - Can not terminate Person during Secondary Employment
- [[WD-8739](#)⁸] - When changing validity of person in HRX, the employment validity is not updated accordingly
- [[WD-8764](#)⁹] - Releaser plugin releases EVERY module regardless of a change
- [[WD-8882](#)¹⁰] - Monthly project time: Hours to allocate are shown as minutes
- [[WD-8941](#)¹¹] - Webdesk doesn't start in clustered scenarios
- [[WD-8943](#)¹²] - Access Right Sets are not taken in consideration for Roles and API Keys
- [[WD-8944](#)¹³] - Caching for TaTimeModelProgram/TaTimeModels needed
- [[WD-8953](#)¹⁴] - Selection of entries in standard destination selection dialog in travel form is not working
- [[WD-8957](#)¹⁵] - "All Kiosk Administrators" group not selected when deactivating the automatic group creation
- [[WD-8965](#)¹⁶] - Cannot create a new person in HRX when employments tab is opened
- [[WD-9007](#)¹⁷] - Freebusy graphic in attendancetableau broken
- [[WD-9067](#)¹⁸] - Webdesk Mobile App doesn't retain login information (iOS + Android)
- [[WD-9120](#)¹⁹] - BS4: Uncaught JS errors when exporting any list as Print/PDF/Excel
- [[WD-9144](#)²⁰] - Regression: Progress column in Workflow-List contains unnecessary break per performer
- [[WD-9170](#)²¹] - Master data validity overridden with current date when creating new user in HRX with changed valid-from
- [[WD-9184](#)²²] - Pay group shouldn't be editable if labor contract not selected
- [[WD-9208](#)²³] - NPE when saving new person in HRExpert
- [[WD-9228](#)²⁴] - Manual Roleholder selection should only be possible on first activity in Custom Workflow
- [[WD-9237](#)²⁵] - NPE when creating a new employment state w/o filling the state property
- [[WD-9278](#)²⁶] - IllegalArgumentException after updating webdesk from 4.0.x to 4.4.x on HrPersonEmploymentStates

New Feature

- [WD-7961²⁷] - HRX: display the value-set collected from another field as selection list
- [WD-8847²⁸] - Set Dashboard as Startpage in HRX

Task

- [WD-8106²⁹] - Write upgrade script to create employments out of the existing employment states
- [WD-8814³⁰] - Move the Exception handling to Http library
- [WD-8988³¹] - Increase minor version number for 4.4

Improvement

- [WD-7464³²] - General improvements on BIRT reports for HRX
- [WD-8434³³] - Add validation when inserting state in SECONDARY employment
- [WD-8438³⁴] - Add possibility to create custom strategies for new relation creations in HRX
- [WD-8469³⁵] - Use existing TERMINATED states when filling gaps in employments' timeline
- [WD-8600³⁶] - Deletion of positions should only be possible if position has no persons assigned
- [WD-8621³⁷] - Sticky Header in Native React Table
- [WD-8810³⁸] - Add "Duration" column in HrPersonEmploymentState table
- [WD-8815³⁹] - Add non-destructive option to termination dialog
- [WD-8878⁴⁰] - "Administrator group" of kiosk gets restricted to groups of own client
- [WD-8927⁴¹] - Approved timeefforts shall not be editable
- [WD-8928⁴²] - PoTaInterceptor should not block saving a person, if TA is unavailable
- [WD-8968⁴³] - Creating a new employment state should use the parent's validity to prefill its own validity
- [WD-8971⁴⁴] - Add validation to the withdrawn date in the change/withdraw termination dialog
- [WD-8978⁴⁵] - Change the icons of the termination dialog buttons
- [WD-9008⁴⁶] - Make it possible to add additional fields for HrPersonRelative and HrPersonRelativeInternal
- [WD-9041⁴⁷] - Duration of employment/states should be calculated correctly
- [WD-9046⁴⁸] - Change the order of columns to better support comprehension as a timeline and better readability
- [WD-9048⁴⁹] - Duration of employments and states: How to calculate them regarding past/future or in/finite
- [WD-9095⁵⁰] - Conditional text format for prefilling the comment field in the termination dialog
- [WD-9110⁵¹] - TaAbsenceEntryApplication: comment needs to be improved to save exactly what was given to the method without webdesk prefixes
- [WD-9270⁵²] - Auto creation of new Employments shall take the validity of a free primary inactive state to prefill its own validity
- [WD-9283⁵³] - HrPersonEmployment / HrPersonEmploymentState: state should have validfrom of today instead of using the employment validfrom

Sub-task

- [[WD-7907](#)⁵⁴] - Improvements report Org Unit Change List
