

### Bug

- [[WD-1868](#)<sup>1</sup>] - EmployeeId generator creates client-specific employeeId, but business-layer validation ignores client
- [[WD-2557](#)<sup>2</sup>] - Invalid generated employee-ID when creating a new person
- [[WD-4631](#)<sup>3</sup>] - Excel Export not working in Reisen meiner Mitarbeiter
- [[WD-5372](#)<sup>4</sup>] - Duplicate actions in response of "/rest/po/actionpermissions/listAllowedActions"
- [[WD-5737](#)<sup>5</sup>] - Drag and drop not working in travel expenses
- [[WD-5910](#)<sup>6</sup>] - Cant´t change "Valid to" date for currencies: different object with the same identifier ...
- [[WD-6134](#)<sup>7</sup>] - In travel expense the columns need new width in internal webdesk
- [[WD-6510](#)<sup>8</sup>] - buildCustomGroups: no orgstructure available for selection
- [[WD-6541](#)<sup>9</sup>] - Folder Explorer layout in Responsive Skin
- [[WD-6591](#)<sup>10</sup>] - BIRT report testing as personalized full system administrator creates exception
- [[WD-6592](#)<sup>11</sup>] - TravelExpense: daily discounts are initially pre-selected
- [[WD-6593](#)<sup>12</sup>] - TravelExpense: daily discounts not working in multiday travels combined with different accountings for first day / middle part / last day of travel
- [[WD-6607](#)<sup>13</sup>] - Translation for the all texts in the app
- [[WD-6696](#)<sup>14</sup>] - When layout group has hidden widgets do not show it
- [[WD-6740](#)<sup>15</sup>] - Employee-ID value already used when creating a new person with auto-suggested employee-ID
- [[WD-6743](#)<sup>16</sup>] - Future valid person within salary accounting period not correctly handled
- [[WD-6753](#)<sup>17</sup>] - All Mobile Apps are stuck on the splashscreen on Iphone devices
- [[WD-6754](#)<sup>18</sup>] - PTM description field does not take 100% in classic skin
- [[WD-6796](#)<sup>19</sup>] - Sub-Tab selector is too big in responsive skin
- [[WD-6820](#)<sup>20</sup>] - Extension of TaTimeModelProgram retrieval from Ta-Connector
- [[WD-6834](#)<sup>21</sup>] - Filtering/Sorting in salaryAccounting repeater tables is very slow
- [[WD-6851](#)<sup>22</sup>] - NullPointerException in event assistant when selecting more ressources than available
- [[WD-6870](#)<sup>23</sup>] - Button labels in date picker are shown in German even if setting is English
- [[WD-6898](#)<sup>24</sup>] - Leftover of Removal of po\_changePassword.act
- [[WD-6904](#)<sup>25</sup>] - Internet Explorer 11 on Windows Mobile is not supported
- [[WD-6908](#)<sup>26</sup>] - CSV Export of SalaryComponents uses wrong charset
- [[WD-6915](#)<sup>27</sup>] - Admin user only should be permitted to login the kiosk-app
- [[WD-6917](#)<sup>28</sup>] - Document Interfaces in kiosk-app
- [[WD-6937](#)<sup>29</sup>] - Wagetype administration should not display clients in selectionlist outside of view permissions
- [[WD-6962](#)<sup>30</sup>] - Update WD 4.0.21 to 4.0.28 fails at update script v175
- [[WD-6966](#)<sup>31</sup>] - executeAndStoreReports is failing with login problems for every user
- [[WD-6973](#)<sup>32</sup>] - Welcome: After login user thumbnail is missing in right corner
- [[WD-6988](#)<sup>33</sup>] - Regression: Restoring deleted person not working

- [[WD-6994](#)<sup>34</sup>] - SQL Exception when opening the processes
- [[WD-6995](#)<sup>35</sup>] - Regression: Not possible to open edit repository action
- [[WD-7000](#)<sup>36</sup>] - Loading a person fails due to invalid assignments of NFC tags
- [[WD-7002](#)<sup>37</sup>] - User does not get locked although performing more failed login attempts than defined in maxNumberOfFailedLoginAttempts
- [[WD-7022](#)<sup>38</sup>] - IE: Delete and Save buttons are mixed up in HRX
- [[WD-7023](#)<sup>39</sup>] - Editing a HR person causes an exception in TA: IllegalArgumentException: argument type mismatch, wpinfo8
- [[WD-7052](#)<sup>40</sup>] - Manually filled in date in Time Correction Request is displayed false
- [[WD-7072](#)<sup>41</sup>] - Salary Accounting Table columns are too narrow
- [[WD-7075](#)<sup>42</sup>] - Welcome: Can not add a quick note
- [[WD-7115](#)<sup>43</sup>] - Termination of employees throws exception "Empty or null property expression"

## Improvement

- [[WD-5617](#)<sup>44</sup>] - Time corrections into an open booking interval should be possible
- [[WD-6145](#)<sup>45</sup>] - Improvements in PoPersonConnector for Bankaccounts
- [[WD-6330](#)<sup>46</sup>] - Add new filter 'hide new entries' in showDataTransferHistory
- [[WD-6424](#)<sup>47</sup>] - Currency Exchange Rate - Job Configuration UI improvements
- [[WD-6681](#)<sup>48</sup>] - Time correction in an open booking interval in future
- [[WD-6748](#)<sup>49</sup>] - Kilometer records table column widths need some optimizations
- [[WD-6776](#)<sup>50</sup>] - ta\_assignDailyRight needs an "today" option for preselection
- [[WD-6804](#)<sup>51</sup>] - Unnecessary empty panels in ta\_getMonthList
- [[WD-6808](#)<sup>52</sup>] - Provide also imagepath to thumbnails in project REST service
- [[WD-6817](#)<sup>53</sup>] - Setup version comparison based on real version number
- [[WD-6826](#)<sup>54</sup>] - Rest Service: Get users that do and do not have NFC Tags assigned
- [[WD-6909](#)<sup>55</sup>] - Replace usage of @NotNull annotation only for UI purposes
- [[WD-6919](#)<sup>56</sup>] - Needed UI changes for po\_showDataTransferHistory.act
- [[WD-6933](#)<sup>57</sup>] - Selection Menu for Tables (Layout Improvements)
- [[WD-6939](#)<sup>58</sup>] - Block accidental move of persons between clients with PoPersonconnector
- [[WD-7001](#)<sup>59</sup>] - Make "Reassign" in wf list open todos available for local administrators (and personalized full system admins)

## New Feature

- [[WD-6505](#)<sup>60</sup>] - Better detection of real changes to display confirm-save dialog just when needed
- [[WD-6686](#)<sup>61</sup>] - Increase default session duration to possible maximum to avoid user frustration about data-loss
- [[WD-6710](#)<sup>62</sup>] - Send email when there is too many failed login attempts to sadmin
- [[WD-6893](#)<sup>63</sup>] - Get all information about a tag using tag's serial number
- [[WD-6894](#)<sup>64</sup>] - Clear a card(serial number) - stop assignment of person-NFCTag
- [[WD-6896](#)<sup>65</sup>] - Service to change any attribute of a card with its serial number

- [[WD-6934](#)<sup>66</sup>] - New parameter for action widget to display only an icon, without border, skin agnostic

## Problembereich

- [[WD-5299](#)<sup>67</sup>] - Travel allowance calculations for German clients not correct for abroad travels

## Task

- [[WD-6212](#)<sup>68</sup>] - Release Beta Version in Apple App Store using Testflight
- [[WD-6885](#)<sup>69</sup>] - Document the business logic behind a person's employment states, validity begin and entry date
- [[WD-6924](#)<sup>70</sup>] - RZB custom jar file has to be built for 4.0
- [[WD-6943](#)<sup>71</sup>] - Make release-script replace the SCM URL in branched version
- [[WD-6967](#)<sup>72</sup>] - Fix broken Selenium tests
