4.2.4

Release Notes - Webdesk - Version 4.2.4

Bug

- [WD-5014[1]] - Time Booking comments are shown in printout but missing in XLS and PDF exports
- [WD-6690[2]] - Remove legacy implementation of PoMenuService + UI
- [WD-7722[3]] - WF open todos - comment function - "Comment" and "Template" not translated
- [WD-7816[4]] - "Edit Project" with project tree loading very slowly - Make loading progressively
- [WD-7818[5]] - Caching bug: User has no projects to book on although having permissions (via varying degrees)
- [WD-8082[6]] - Can´t scroll in menu template view
- [WD-8295[7]] - Project chooser for chosen employee falsely shows projects of authenticated user
- [WD-8305[8]] - Forbid implict change of menu-templates inside client-menutree-editor
- [WD-8337[9]] - Back-Button not working in editPerson Admin UI
- [WD-8432[10]] - Rescheduling Grid does not take full height reliably
- [WD-8470[11]] - Attendance tableau report
- [WD-8473[12]] - Webdesk on PR-69 instance doesn't startup because of broken/inconsistent database
- [WD-8508[13]] - Webdesk HRX standalone without Shark dB/workflow licence not working in 4.2.x
- [WD-8518[14]] - RestAuthorization not working when webdesk running with context
- [WD-8526[15]] - Change Password runs forever, does not change password
- [WD-8573[16]] - IllegalArgumentException when using daily discounts in travel expenses

New Feature

- [WD-8333[17]] - REST-Service for creating a new trial customer on webdesk instance
- [WD-8426[18]] - Integration of all REST Authentication/Authorization Layers

Task

- [WD-3044[19]] - Concept Rest Authentication based on API Key or User<-> Endpoint Relation
- [WD-7575[20]] - Webdesk Licence for hr-actions
- [WD-8396[21]] - Update React version to 16.8

Improvement

- [WD-7281[22]] - Support dynamic fields of PtmTimeEffort also in PTM reports
- [WD-7585[23]] - Status Panel has neutral fallback state (grey & empty) before receiving real state from server
- [WD-8279[24]] - "Numbers of bookable projects on Kiosk and in total" shall be shown in entire lifecycle
- [WD-8315[25]] - Deactivate browser autocompletion/suggestions in menu search field
- [WD-8320[26]] - Referer based REST Authorization interceptor
- [WD-8414[27]] - Travel expense: improve route in kilometer allowances tab by allowing the selection of standard destinations
