4.0.26

Improvement

- [WD-5646[1]] - Improve Usability in Time Attendance-tab of po_editPerson.act
- [WD-5931[2]] - Performance improvement of Project Time Report
- [WD-6202[3]] - Menutree templates view in editMenuTree needs side-by-side panel
- [WD-6309[4]] - Menu Tree Maintenance - After adding an action link from the chooser give clearer followup choice
- [WD-6331[5]] - CSV-Export of complete Salary components table
- [WD-6411[6]] - executeAndStoreReports: export file attachments
- [WD-6421[7]] - HRX Dashboard: Make a description for "Abwesenheitsrate"
- [WD-6500[8]] - Validation error marker should disappear as soon as the user fixed the invalid field
- [WD-6582[9]] - Refresh PTM and Time Mobile booking page when app is awaken from background.
- [WD-6654[10]] - sadmin change password success message should not display the stored value
- [WD-6682[11]] - Refresh WF Mobile Assigned Requests on app wakeup

New Feature

- [WD-72[12]] - Integrate ChangeLog-Interceptor into Webdesk
- [WD-257[13]] - Berechnung Auslandsdienstreisen für DE
- [WD-6570[14]] - Tabbed Pane transforms from single row to multi row when viewport width requires it
- [WD-6615[15]] - Change behaviour of password bean properties in system parameters action

Bug

- [WD-5522[16]] - Controls in connector preview are messed up in responsive skin
- [WD-5907[17]] - Fix responsive skin in action: seperatorFileConnector
- [WD-5964[18]] - Rescheduling: check boxes get not checked when editing an existing planning
- [WD-6079[19]] - In Rescheduling Planning UI today should always be focused
- [WD-6105[20]] - Field order in rescheduling mask is completely mixed up
- [WD-6180[21]] - Sub projects are not synchronized between servers in our Live system
- [WD-6339[22]] - Buttons without approriate styling classes in "Report Definition" in tab "Report designs"
- [WD-6428[23]] - Favorite Panel missing in Responsive Skin and wrong buttons in Favorite Management
- [WD-6459[24]] - TravelExpense: estimated km via geocomplete plugin not working
- [WD-6479[25]] - Address validation: wrong validation error when opening draft travel
- [WD-6513[26]] - Validation shows duplicate message on HRX person editor's Terminations' tab
- [WD-6522[27]] - Travel expense: Submission in IE11 leaves UI frozen but backend receives submission properly
- [WD-6536[28]] - Fatal problems with wf_getOrgProcessInstances configurations
- [WD-6546[29]] - Opening a person in Webdesk Admin saves (!) x other persons behind the scenes
- [WD-6561[30]] - Long project master data description causes an exception

- [WD-6565[31]] - Root Folder Path for a new configuration is not validated and not testable
- [WD-6580[32]] - Login not posssible with Umlaute in username or password
- [WD-6583[33]] - Document Structure cannot be created at fresh installed Alfresco
- [WD-6590[34]] - Flawed UI rendering in the Attachment Panel in processes that set daily rights
- [WD-6602[35]] - Rescheduling: show weekends in responsive skin
- [WD-6633[36]] - Import of artifacts is not working because of wrong import of AuditLog field
- [WD-6639[37]] - Import of PoConnectorLink configuration is not working because UIDs are imported
- [WD-6644[38]] - Forced sadmin password change makes NULL Pointer error
- [WD-6645[39]] - Deleting of a today created person causes an NP Exception
- [WD-6648[40]] - Correct equals() implementation in AbstractPersistentObject to integrate the class name
- [WD-6650[41]] - Edit time efforts: when adding a new effort comment field will not autoresize on typing
- [WD-6656[42]] - Error in update script v158 (prepare.xml)
- [WD-6663[43]] - Back Button does not work when opening embedded journal
- [WD-6675[44]] - Technical Review with Jozef
- [WD-6689[45]] - Regression: encrypted beanproperties are injected encrypted.
- [WD-6745[46]] - Rendering error in activities after auto-refresh in PTM stop-watch

Task

- [WD-6362[47]] - Add Fake possibility to switch to other Users
- [WD-6605[48]] - Transform KIOSK-APP code to use Typescript
- [WD-6606[49]] - Functional Review with Gabriel
- [WD-6612[50]] - Change in whole webdesk picture icons to use icon service
- [WD-6643[51]] - Update Personalwolke Test Server to 4.0.25
