Import of Daily Schedules

This action can be used to import **daily schedules** required for **rescheduling** from the time management system (IF6020). The imported daily schedules are then available in the rescheduling form as a **category**. The menu item can be found in the menu tree > **Scheduling Module** > Import of Daily Schedules.

- **Rescheduling structure**
  Selection of the scheduling structure - e.g. daily schedules
- **Daily schedules**
  Display of the daily schedules that have not been imported yet
- **Selected schedules**
  Daily schedules selected for import or activation.
  - Accept all
  - Accept selected
  - Remove selected
  - Remove all
- **Unknown schedules**
  Existing rescheduling categories that have no counterpart in the daily schedules
- **Inactive schedules**
  Imported daily schedules that are inactive
- **Select number / name**
  - Deactivate all
  - Deactivate selected
  - Activate selected
  - Activate all
