Completed ToDos

General informations

Under this menu item, decision-makers (superiors, personnel) have the opportunity to obtain an overview of the **requests processed / completed** by them.

The view is essentially the same as that of the Open ToDos¹, with the difference that only **completed requests** are displayed in the completed tasks that can no longer be processed further. This view is a kind of archive that only serves to document the completed tasks.

In the screenshot above you can see,

- when the requests were completed (**ToDo finished**)
- who the requestor (Auer Franz) was and which department / group (PP-BAS) he belonged to (Author of Process)
- Which activity (approval, that is, a request requiring approval) the request was for (activity)
- that it was a matter of time correction / special absenteeism requests (**details**)
- that Auer Franz was in all cases the applicant

A more detailed description of the filter functions and the detail view (by clicking on the black info button / Details button) can be found in the chapter Workflow / General Information²s.
