

## Account corrections (absolute + relative)

As mentioned above, account corrections can also be made (in the day view).

### WARNUNG

**Important: Account corrections** can only be made in the **daily view**. They always apply as of the key date (the key date always corresponds to the day currently selected)!

The change can be both absolute (e.g: Input of 5 as remaining vacation - sets the remaining vacation to 5 days, no matter which value was posted to the account so far) as well as relative (e.g: Enter +10 as Remaining vacation - sets the remaining vacation to Remaining vacation old + 10 days = Remaining vacation new).

Correct account			Absolute correction			Relative correction		
Konten			Konten			Konten		
Tages-Soll	7:42		Tages-Soll	7:42		Tages-Soll	7:42	
Tages-Ist	7:30		Tages-Ist	7:30		Tages-Ist	7:30	
M-Summe	7:30		M-Summe	7:30		M-Summe	7:30	
Saldo	-41:42		Saldo	-41:42		Saldo	-41:42	
Resturlaub	5,00		Resturlaub	<input type="text" value="5"/>	 	Resturlaub	<input type="text" value="+10"/>	 
GLZ-Saldo 1:1	0:00		GLZ-Saldo 1:1	0:00		GLZ-Saldo 1:1	0:00	
Üst25% (TZ)	0:00		Üst25% (TZ)	0:00		Üst25% (TZ)	0:00	
Üst65%	0:00		Üst65%	0:00		Üst65%	0:00	

The account is changed to the value entered after entering a number and clicking the **Save** icon
