Permission Concept for Personalwolke Project Time

Permission management in the Project Time module is based on the loose groups[1] described below.

- **XX-PTM-Usr** - *Project Time User* - This group is for all users who book project times.
- **XX-PTM-Mgmt** - *Project Time Management* - This group is for managers (supervisors). A supervisor can view employees' project times and change them if necessary.
- **XX-PTM-ProjMngr** - *Project Time Project Manager* - This group is for project managers, who can evaluate projects.
- **XX-PTM-Admin** - *Project Time Administrator* - Project Time administrators create and manage projects and the associated permissions.

By adding users to the individual loose groups, they receive the following menu items:

XX-PTM-Usr	XX-PTM-Mgm	XX-PTM-ProjMngr	XX-PTM-Admin
• Project Time Booking[2] - *Here you can book project times.* • Enter Project Time[3] - *Here you can enter and change project times manually.* • Info / My Project Times[4] - *Here you can evaluate your own project times.*	• Enter Project Time[5] - *Here you can enter and change project times manually.* • Management / Project Times of My Employees[6] - *Here you can evaluate your employees' project times.*	• Management / Project Efforts[7] - *Here you can evaluate project reports.*	• Enter Project Time[8] - *Here you can enter and change project times manually.* • Administration / Project Time / Projects[9] - *Here the "Project Admin" can create projects and assign permissions for the respective projects.* • Management / Project Times of My Employees[10] - *Here you can evaluate your employees' project times.*
