User settings

This menu item is located in the main menu in Classic mode and, in Responsive mode, is hidden behind the arrows in the header to the right of the picture.

Options:

- **Language:** The user's preferred language can be selected using a dropdown window
- **Appearance:** Classic or Responsive mode can be selected,
- **Menu:** In Responsive mode, the options Desktop, Mobile and Dynamic are also available. A more detailed description can be found under **Interface**[1]**.**

Depending on the module used, further sections may be displayed here:

- **Bank accounts:** Here users can keep their own bank details up to date.
- **Project time:** Here the user has the option to configure the automatic booking settings slightly
- **Travel:** Here the user can save vehicles that can be used for business trips
- **Workflow settings:** This item can be configured by the administrator. A more detailed description can be found under **Client**[2].

NOTIZ

The items listed depend on the modules used and the administrator's settings!
