Family Members in the Company

This tab is used to record family members who work in the company.

Use cases here are:

- Emergency contact
- Co-insured dependents?
- Which relatives receive family allowance?
- Is garnishment possible based on maintenance entitlement?

Family Members

In this area, the employee's relatives are entered. Use cases here are:

- Emergency contact
- Co-insured dependents?
- Which relatives receive family allowance?
- Is garnishment possible based on maintenance entitlement?

If required, the address of each relative can be taken over from the employee's address.

Marital Status

Here you can enter all marital statuses and last names of the employee with history tracking.
