## **Tab Organisation - Positions**

When working with (budgeted) **positions**, it is not possible to enter an employee directly in an organizational unit or department.

In this case, the **employee** is assigned one or more (budgeted) **positions** that are then assigned to the **organizational unit**. A position can be filled by one or more employees, and an employee can also be assigned to more than one position, whereby one of the positions must be flagged as **primary**.

**Important**: Consider Time limitation and Historisation<sup>1</sup>. so that you achieve the intended effectiveness and historization!
