Tab Education - Education

In this tab, you can enter the education the employee has completed, taken from their résumé.

The Education area is used to document

- education completed so far at schools, universities of applied sciences, universities and other educational institutions
- further and additional training
- certificates (driver's license, first aid certificate)
- professional career prior to joining the organization

The list of all possible fields can be found here: Education Field Index[1]

Note

If required, additional fields can be added in the "Education" area to record data specific to your company. Please contact our specialists and experts for this!
