

Extension of a temporary employment contract

- Open the relevant employee.
- Open the [Employment - Employment tab](#)¹.
- By clicking on "**Edit**", the employee file is set to write mode.
- Create a new entry by clicking on "**New**".
- Now you can **enter all contract-relevant data** into the form and provide the contract with Correct validity by entering the corresponding values in the "**Valid from**" and "**Valid to**" fields.
- If you leave the value as default in the field "Valid to", you create an unlimited entry, or you have the possibility to create a limited entry with this date field (again).
- Save by clicking the "**Save**" button
