

Attach Personalwolke to the home screen of your mobile device

To start the web app with one click on your smartphone or tablet, you can attach Personalwolke at your smartphone/tablet home screen.

Android

- Start a browser on your mobile device (e.g. Google Chrome, Firefox)
- Open Personalwolke e.g. <https://personalwolke.at/webdesk3/>
- Login with you user name and password
 - The start page will be loaded
- Klick in the upper right corner on the 3 vertical dots
 - A selection window opens

Google Chrome:

- Klick "add on home screen"
- An another window will open to enter a name. Enter an individual name.
- Confirm your entry by a klick on "add"
- Your personal Personalwolke is pinned on your home screen

Firefox:

- Klick on "site"
 - An another window will be openend
- Select "Add to home screen"
- Your personal Personalwolke is pinned on your home screen

iPhone, iPad, & iPod Touch

- Start a safari browser on your mobile device
- Open Personalwolke e.g. <https://personalwolke.at/webdesk3/>
- Login with you user name and password
- Klick on the release button
- Select "Add to Home Screen"
- An another window will open to enter a name. Enter an individual name.
