4.5.8

Release Notes - Webdesk - Version 4.5.8 - October 22, 2019

- Creation of document templates in HR Expert works again
- Action buttons in the correction client are now hidden correctly via configuration
- Names in the menu tree are no longer displayed as ID numbers
- The "Cancel" button is displayed again in the correction client
- Fixed layout errors of the time pickers in the correction client
- Improved speed when retrieving the travel expense report
- Fixed an error message when opening travel details
- Fixed an HrPersonConnector error where data was not exported because of empty source fields in the configuration
- Improved translations of the distance threshold function
- Improved connector preview to use only configured fields

Bug

- [WD-9594[1]] - Generation of document templates fails when trying to create files in HRX
- [WD-9921[2]] - Correction Client disable action button not correctly working
- [WD-9951[3]] - orgBuilder action name is shown as UID in the menutree maintenance
- [WD-10029[4]] - Correction Client cancel button is missing when editing row
- [WD-10031[5]] - Correction client timepicker buttons have a slight offset from their background
- [WD-10036[6]] - Bad performance of tm_getOrgTravel.act
- [WD-10047[7]] - Exception when opening details view of a travel under certain condition
- [WD-10051[8]] - HrPersonConnector fails to export when one of the configured field mappings has no source name
- [WD-10061[9]] - Improve translations

Improvement

- [WD-10052[10]] - Improve connector preview functionality to only use the configured fields
