4.10.1

Release Notes - Webdesk - July 13, 2020

Bug

- [WD-5151[1]] - Fixed a display issue in the "Training list" BIRT report
- [WD-11382[2]] - Past group assignments are now correctly taken into account in HR-Expert with the option "Determine persons from groups as of reference date"
- [WD-11446[3]] - Fixed an error message when opening the "Project times of my employees" report
- [WD-11478[4]] - The client filter in the weekly program list now shows all clients again
- [WD-11496[5]] - Journal V2 (React Journal) is now included in the license "ta-if6020-info"
- [WD-11497[6]] - Saving process definitions with 2 or more approvers is possible again

Improvement

- [WD-11501[7]] - New system parameter to enable and disable sending the default email to trial client admins. The default value is "false".
