4.11.1

Release Notes - Webdesk - July 20, 2020

- [WD-11105[1]] - The license checker no longer checks every single group
- [WD-11370[2]] - The HR-Expert report "Anniversaries and Birthdays" now uses the entry date of the employment
- [WD-11495[3]] - Fixed an issue where inconsistent account values were loaded from the 6020
- [WD-11502[4]] - Fixed an issue in HR-Expert reports where not all users of the selected groups were displayed
- [WD-11531[5]] - Fixed an issue where an additional percentage was displayed in every cell for half-day intervals in the absence client
- [WD-11500[6]] - Time model caches are now correctly replicated and updated on all Webdesk nodes
