4.16.1

Release Notes - Webdesk - October 6, 2020

Bug

- [WD-11743[1]] - Fixed an issue where it was not possible to enter a project time booking on the 31st of the month when the option to validate against attendance time was active
- [WD-11864[2]] - Fixed an issue where an error message appeared when opening a folder in the Folder Explorer that had already been deleted in the folder structure configuration, but whose deletion had not yet been applied

Improvement

- [WD-11847[3]] - The booking action was changed so that only negative values can be used for travel time on clock-in bookings and only positive values on clock-out bookings
