4.16.2

Release Notes - Webdesk - October 8, 2020

Bug

- [WD-11407[1]] - Fixed an issue where the conversion of times in the account list with server-side rendering was incorrect when "---" (no conversion) was used for the conversion type and the accounts were given in normal minutes
- [WD-11771[2]] - 2 existing persons with same email in system, cause exception for any of those when saving

New Feature

- [WD-11556[3]] - TaOrgJournal Table Overview React Component

Task

- [WD-11775[4]] - Maven build: add possibility to skip npm build

Improvement

- [WD-10955[5]] - Handle exceptions when using AbstractFormAccessingJsonEndpoint
- [WD-11046[6]] - Write JS factory for new React component and outsource from xslt
- [WD-11572[7]] - Add No API Key error to getKiosk endpoint
