4.16.6

Release Notes - Webdesk - October 27, 2020

Bug

- [WD-11450[1]] - Fixed an issue where files were not deleted successfully when the export failed
- [WD-11913[2]] - Switching between days in the rebooking action now displays the correct data
- [WD-11916[3]] - Fixed an error message when opening the journals
- [WD-11921[4]] - Fixed an error message when opening the rebooking action

Improvement

- [WD-11835[5]] - currentUser can now be used in process validation in order to use data of the requester from there
