4.21.0

Release Notes - Webdesk - Version 4.21.0 - February 11, 2021

Bug

- [WD-11858[1]] - Fixed an issue where the action "hr_showPersonProfile" assigned default permissions to all persons with every system update.
- [WD-12094[2]] - Fixed an issue where it was not possible to see your own private appointments created in Microsoft Office365.
- [WD-12236[3]] - Fixed an issue where the part-time factor was not displayed correctly in the personal information.
- [WD-12237[4]] - Fixed an issue where only your own monthly journal was displayed when requests were made for other persons.
- [WD-12335[5]] - Fixed an issue where it was not possible to save cost centers when the sum of all cost center types was exactly 100%.

New Features

- [WD-11872[6]] - It is now possible to select all identical actions in the workflow lists with a single click.
- [WD-12083[7]] - It is now possible to edit the Webdesk branding.
- [WD-12158[8]] - It is now possible to show the daily program in the month view of the correction client.
- [WD-12012[9]] - It is now possible to enter the number of hours manually in the monthly project time tracking.
- [WD-12333[10]] - The VAT values of the receipts in the travel expense report are now displayed in sorted order.
