4.19.12

Release Notes - Webdesk - Version 4.19.12

Bug

- [WD-12202[1]] - Fixed an issue where pagination of tables did not work for the action "ta_getorgJournal".
- [WD-12334[2]] - Fixed an issue where persons were able to delete their profile pictures even though this was disabled in the client settings.
- [WD-12354[3]] - It is now possible to make vehicles mandatory in business trip requests.
- [WD-12373[4]] - Fixed an issue where the mileage deduction in business trip requests was not displayed correctly.
- [WD-12433[5]] - Fixed an issue where it was not possible to start a business trip when the default expense report contained "2 vehicle types" but no vehicle was selected in the trip.
- [WD-12473[6]] - Fixed an issue that occurred under certain conditions when the correction client was opened in the daily view.
