4.19.14

Release Notes - Webdesk - Version 4.19.14 - April 9, 2021

Bug

- [WD-12355[1]] - Fixed an issue where BIRT reports in Webdesk did not export the correct data in Excel format
- [WD-12407[2]] - Fixed an issue where the "More" button in HR-Expert was not visible directly after creating the person if the user does not have certain access rights
- [WD-12583[3]] - Fixed an issue where the entry date displayed in the HR-Expert Velocity header did not come from the current employment.
