4.30.3

Release Notes - Webdesk - Version 4.30.3 - July 30, 2021

Bug

- [WD-12932[1]] - Fixed a UI issue with icons.
- [WD-12937[2]] - Fixed an issue that made it impossible to adjust the capacity used in the room reservation in the event wizard.
- [WD-12954[3]] - Fixed an error message when opening certain events.
- [WD-12993[4]] - Fixed an error message when uploading a file to a receipt with additional fields.
- [WD-12995[5]] - Fixed an issue in the resolution of role holders.

Improvement

- [WD-12815[6]] - Ctrl-click on a room calendar entry now opens in a new window (also on Mac).
- [WD-12879[7]] - The file types that can be used in travel expense reports can now be configured at the client level.
