4.31.0

Release Notes - Webdesk - Version 4.31.0

Bug

- [WD-12706[1]] - Fixed an issue that caused the "Valid Until" date not to be set correctly when a role membership was removed.
- [WD-12776[2]] - Fixed an issue that made it impossible to add legislations.
- [WD-12908[3]] - Fixed an issue that caused the option "Inherit view permission and subordinate groups" not to be saved.
- [WD-12938[4]] - Fixed an issue that caused daily values not to be generated when time tracking for a person was activated with a date in the past.
- [WD-12960[5]] - Fixed an issue with the display of "Persons in the area of responsibility of ...".
- [WD-12189[6]] - UX improvements in the correction client.
